FAQs Q: What is the most important thing for customers to know about my products? A: We make sure every one of our products is made right here in Colorado from the freshest, natural ingredients and prepared without any synthetics or fillers. Q: What happens when someone's order is shipped out? A: We process your order immediately. You will receive an email confirming shipment and the tracking number. From there, our goods are sent to you via UPS, FedEx or DHL. We have shipped everything from fresh fruits and vegetables to frozen meats and poultry. We are committed to getting your order to you quickly, safely, and at the lowest possible cost. We just ask that you allow time for package delivery and customs processing. Q: Are all products safe? A: We take our food safety very seriously. We use all-natural, preservative-free ingredients and prepare our products with your health and safety in mind. That's why we always ask you to double check your items thoroughly before eating. Q: How much shipping does each order cost? A: We offer free shipping on most products and free shipping nationwide for orders over \$250. For orders under \$250, shipping is calculated based on order size and location. There is no minimum or maximum per order. Q: What's the return policy? A: For most items, it is absolutely free. You may return an order within 30 days of receipt for a full refund, minus a \$5.00 processing fee. Q: What kind of packaging do you use? A: We use recyclable boxes and a wide variety of recyclable packaging options for your convenience. We also have a lot of free reusable shipping boxes you can use instead of using those bubble wrap and packing peanuts. Q: What is your shipping schedule? A: We strive to ship your orders as soon as they are received. Orders are processed immediately upon arrival in our warehouse, so your order should be ready to ship within 24 hours of receipt. Q: Where does your product come from? A: You can rest assured that our products are grown and produced right here in our own state-of-the-art sustainable agriculture facility in Eaton and Farmington, Colorado.Q: How to find out the type of compound by adding an input as an integer? I have a binary search tree that
